

Adopt and Name Me

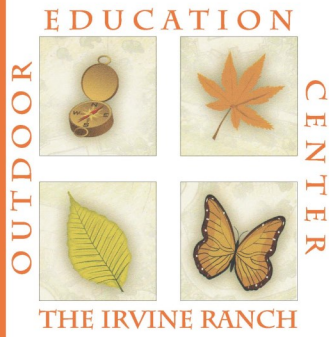

<http://iroec.kintera.org/adoptatree>

ADOPT - A - TREE at the IROEC!

You, your family, school, group or company can do something special for the environment, education and celebrate a piece of Orange County heritage by adopting one or more of the citrus trees in the Pankey ranch camp grove as we replant after the fires. As one of the last groves in Orange County, your support can help these trees grow and thrive. For just \$500, you can name and help maintain a healthy tree through the care by our naturalists as they mulch, water, prune and protect against insects. You will receive a complimentary “U-pick” opportunity too as our way of saying thanks and reaping the harvest of your kind support. Call 714-546-8558 ext. 145 or e-mail devond@ocbsa.org for more information. Thank you.

Help us rebuild the Irvine Ranch Outdoor Education Center

The beloved Irvine Ranch Outdoor Education Center (IROEC) suffered severe damage from the recent Canyon Fire2 to many activity areas.

There is great need now for community support to start the rebuilding process, finish the capital campaign and fund scholarships to help underserved school and youth groups attend. Help us continue to build leaders and educate boys and girls through STEM, environmental and team building programs.

You can help rebuild the camp and these fun and educational programs to serve the thousands of boys and girls who visit this magical place each year.

For current updates on programs, to donate and ways to help, please visit www.outdooreducationcenter.org or call 714-546-8558 ext. 145
